

MY SPACIOUS FAVOURITE PLACE.

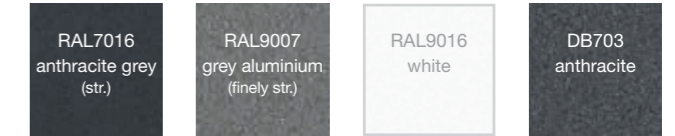

THE ERHARDT PM PLUS.

ERHARDT[®]
OUTDOOR LIVING ■

Standard colours

Trend colours

There are four standard colours to choose from when creating your PM Plus pergola awning. Our trend colours and all colours in the RAL range are available for a surcharge.

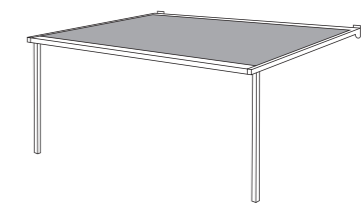

Our wide range of mountings guarantees easy installation – even on challenging surfaces. And our functional clip bracket gives you an elegant and modern design.

My spacious favourite place

As a specialist in sun protection, ERHARDT has the right awning and roofing solution for any outdoor area. Our PM Plus pergola awning combines the best from an awning and a terrace roof: it gives spacious balconies or terraces reliable protection from the sun, wind and weather and from prying eyes. Plus it has the flexibility to adapt to suit your needs.

MY FAVOURITE PLACE

For me and all my guests.

I love hosting, and I regularly invite friends and family over to my house. Long into the night, we sit outside together in my favourite place to chat, have a laugh and enjoy good food. And the PM Plus means I'm fully prepared if lots of people are coming.

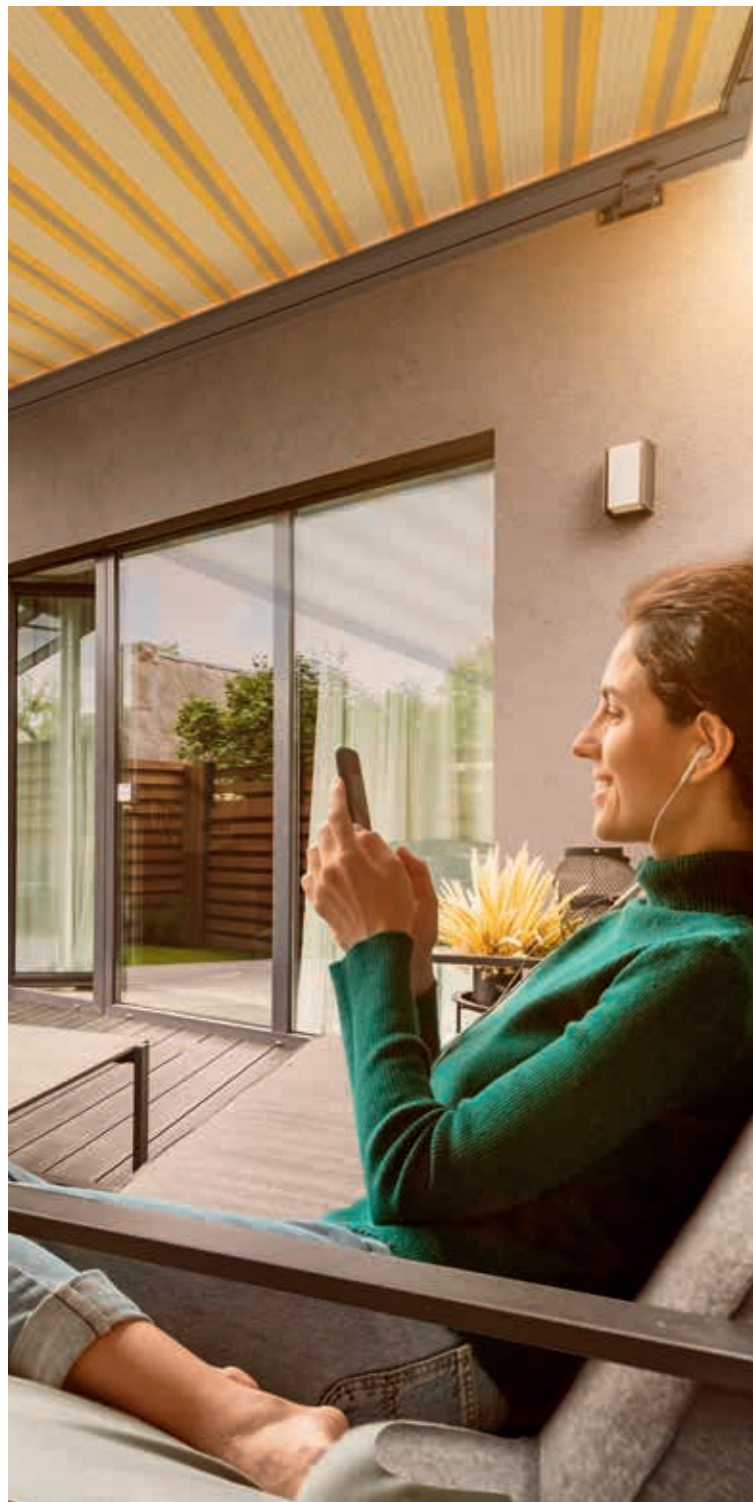

There's space for everyone – even if more people come at short notice.

Mounting the PM Plus in series allows any number of units to be combined and larger areas to be covered. LED strips light up the area and ensure a pleasant atmosphere at all times, and the optional infrared heater provides both light and additional warmth.

“

*I can lean back
and let everything
go here.*

”

The stable and long-lasting pergola awning provides reliable protection for your favourite place. The awning fabric at the side can be quickly tensioned using a zip to ensure no light gets through, and when combined with the optional Vario-Valance, all you have to do is press one button to provide ideal shading and privacy when the sun is low.

MY FAVOURITE PLACE

To relax.

Sometimes I just want to be alone with my thoughts in my favourite place, where I feel sheltered and secure. The Erhardt PM Plus gives me my own retreat where I know I won't be disturbed. It's a place where I can relax without worrying about being seen by prying eyes or bothered by the glare of the sun, all while enjoying the view of my garden. For me, it's a real luxury.
